

## **NHERI GSC General Meeting Minutes**

Friday, March 18, 2022, at 11:00 am Central Time

Thank you to everyone who attended this week's meeting. We had a WONDERFUL presentation from Dr. Kurt Gurley from the University of Florida. His presentation on the work he is doing with the Boundary Layer Wind Tunnel was an excellent example of what it takes to write a successful NSF Proposal. A recording of his presentation will be made available on the NHERI Graduate Student Council Explore Meetings page, you will find a link below. Additionally, all slides from today's presentation are attached to this email and contain all the announcements discussed below.

The Executive Committee gave a few updates and are as follows:

- We got our NHERI Graduate Student Council Logo! If you wish to use this logo for anything, please contact Robin and Holly to ensure it follows the rules and regulations of NHERI and the NHERI Graduate Student Council.
- Our Chair of Technology and Communications has developed two calendars. One for conferences and another for NHERI GSC Workshops and Events. Their descriptions and access to these calendars is below. If you would like to add anything please contact Niko ([tdorov@chapman.edu](mailto:tdorov@chapman.edu)) and Edwin ([edwinrajeev@ufl.edu](mailto:edwinrajeev@ufl.edu)).
- The NHERI Summer Institute is still taking applications for virtual attendance, if you would like to sign up please do so using the link below.
- The 47<sup>th</sup> Annual Natural Hazards Workshop is available for sign-up. There are scholarships available, so if you would like details on these please contact Robin Nelson.

Our next meeting will be **15 April 2022 at 11:00 AM CST**. If you have speakers you would like to hear from please let the Executive Committee know and we will do our best to make that happen.
